Hector Guy Adégbidi:

Thank you for your correspondence of February 28, 2024 regarding the consequences of the federal cap on the number of international students. Our Department appreciates your input, as international students are a critical component of the culture and economy of New Brunswick.

Please be assured that we take the concerns you have raised about university funding seriously, and I firmly believe that New Brunswick's public universities are crucial for fostering a brighter future for the Province.

Sincerely,

Hon. Greg Turner
